### UPCOMING PROJECTS

This is the first project newsletter regarding the summer 2024 construction projects at Minot International Airport.

#### TAXIWAY B2 & TAXILANE RECONSTRUCTION

- The project will be executed in 3 phases
- Includes demolition, grading, aggregate base and asphalt paving, and pavement marking
- Phase 1 Construction**
  - Scheduled to begin on **Monday, June 17th**
  - Will require **closure of Taxilanes A and B** (North T-Hangar Area)
  - Phase 1 construction is anticipated to last **5 weeks**
  - The first week of work will include contractor set-up and asphalt removal operations
- Project Timeline**
  - Targeted completion date of **early August**

#### WILDLIFE HAZARD REMOVAL

- The project will be executed in 3 phases
- Enhance airport safety by removing nearly 20 acres of hazardous wildlife attractants near the runway
- Includes grading and storm pipe installation to improve drainage and reduce flooding risk
- Project initiation items will begin on Monday, June 10th (includes access gate installation and mobilization)
- Phase 1 Construction**
  - Construction is scheduled to begin on **Monday, June 17th**
  - Phase 1 construction is anticipated to last **13 weeks**
  - Work will be located in the southwest portion of the airfield
  - Will require a **7-day closure of Taxiway C** (specific dates TBD)
  - The first week of work will include contractor set-up and initial site grading
- Phase 2 Construction**
  - Construction is scheduled to begin on **Monday, June 17th**
  - Phase 2 construction is anticipated to last **9 weeks**
  - Work will be located in the southeast portion of the airfield
  - Will require a **temporary shutdown of the Runway 13-31 Instrument Landing System** (specific dates TBD)
  - The first week of work will include contractor set-up and initial site grading
- Project Timeline**
  - Targeted completion date of **late November**
