This is the sixteenth weekly newsletter update regarding the summer 2024 construction projects at Minot International Airport.

TAXIWAY B2 AND TAXILANES A & B RECONSTRUCTION

- Phase 2 construction was completed last week on Taxiway B2. All affected pavements have reopened.

WILDLIFE HAZARD REMOVAL PROJECT

- The contractor has continued ditch excavation in the Phase 1 area of the project, construction of embankment areas in the Phase 2 work area, and installation of storm water infrastructure in the Phase 1 & 2 work areas.
- To accommodate adjacent grading work, Taxiway C has been closed from Taxiway F to Taxiway C4 on a daily basis between 7:00AM and 8:30PM.
- Project Lookahead**
 - Next week, the contractor will continue grading and turf restoration in the Phase 1 area (Southwest Quadrant) and the Phase 2 area (Southeast Quadrant). Topsoiling stripping and installation of storm water infrastructure will commence in the Phase 3 project area (Northeast Quadrant).
 - Taxiway C is expected to reopen following the completion of Phase 1A construction, which is expected to be on Tuesday, October 1st.

Please check NOTAMs for up-to-date information regarding the airfield status.
